Patrick Beck v. NEW MEXICO

MITCHELL R. BECK  
PRO SE

PRO SE UPDATE AFFIDAVIT AND EVIDENCE SUBMISSION

COMES NOW The litigant in the above named cases making a submission in Filing in good Faith. The litigant is filing Pro Se.

1) The Litigant moves this court for a reconsideration and objects to the findings of incompetency, delusional and there fore dangerous. The statements alleged to be made by the litigant in this action to the Drs. Larsen, Brodke, and Riber was filed incorrectly. The litigant OBJECTS to these findings. Missing information and inconsistencies on the record prove that the witness testimony to find the defendant/litigant in this action as dangerous, incompetent and delusional have been made in a defamatory and slanderous mannerism. The litigant, Patrick Beck moves to proceed Pro Se in aiding his currently appointed counsel. It has been over 2 months since appointed counsel has been allowed to talk to the litigant to make timely Filings in regard to objections and evidentiary discrepancies.

2) On 4/17/2023 the litigant was moved From CCLG to Otero County Prison. On or around 5/23/2023, he was then moved to Fort Worth (FMC). The discovery and evidence the litigant/defendant had was taken away and never received in the transfer from Otero to FMC. His money from CCLG was also never sent. The defendant has evidence to refute and rebut Dr. Larsen and Dr. Brodke's claims. The evidence was withheld by previous counsel.

This evidence proves otherwise to the witnesses claims, mainly the litigant's mother, of whom he has only seen once in the past 20 years since 2003. The defendant objects to the statements made by GAWLICK, WUNDERINK, BEHRMAN, PETERSON, Dr. LARSEN, Dr. BROVKE, and Dr. BIBER. The defendant/litigant had requested CANDELARIA's help in obtaining the proper documents for his patent. The USPTO needed him (me) to fill out a form to correct a typing error made by the Patent Office, which in turn would prove the patent is real and not some "delusion". His documents were seized illegally by Otero when CANDELARIA claimed the patent was not real & the defendant/litigant was incompetent. The defendant was able to call the Patent Office through the counselor since it has to do with the case. The Patent Office then was going to send the paperwork, but the litigant/defendant was immediately moved to Otero. CANDELARIA originally told the litigant that he was not going to raise incompetency & raised incompetency a week afterwards, let the record show that CANDELARIA was upset over the Patent pending and she raised incompetency over the Patent instead of filing timely objections. CANDELARIA had evidence that the alleged victims did not tell the honest truth & raised incompetency instead of FACT Finding. The defendant/litigant was then unable to file the appropriate forms for the patent or contact the Patent Office, when the litigant/defendant asked Dr. Biber for help, she used it against him, after the counselor at FTH FMC told him he had to ask her for permission. After months, The defendant has finally been able to contact the

Patent office, since no one at FMC EFW or his own counsel offered help when asked many times. This is therefore a purposeful arbitration in sabotage of the defendant's patent. The Doctors claimed it isn't real when it is. The government has also sabotaged the campaign the defendant had just started online & labeled him as delusional for political purposes. This is in fact against the law and the Constitution. The defendant has a right to intellectual property and has now received an abandonment notice because Otero took his addresses and paperwork. Dr. Larsen & Brovko claimed the defendant as delusional, and this has obstructed Justice and gotten in the way of the defendant having a fair and equal right to offer evidence, this has caused undue delay and deprived the defendant of his constitutional amendment rights to an attorney, access evidence, own intellectual property, run for President, prove he is not delusional and that his patent is real and gotten in the way of the patent process. A fundamental miscarriage of Justice has occurred. The unfair prejudice and disparity being exercised toward the defendant is strong. 18 months in Jail without an indictment on a preliminary hearing ~~clearly~~ clearly violates due process. The defendant/litigant has attached the abandonment notice of the patent. The government has forced the defendant to lose all of his property with false and fabricated claims. One piece of evidence is attached to prove the patent is real and more evidence will be submitted to prove the defendant is not delusional. Many of the claims made by the doctors were fabricated, out of pocket,

and presented as though the defendant had said certain things that were not said, as such a long list of all of these fabrications will also be submitted to put these claims made by 3rd parties in dispute.

Filed on The 27<sup>th</sup> day of December 2023.  
Made to the best of the Plaintiff/Defendant's knowledge and beliefs. Under oath via §1746.

Patrick Beck (Beneficiary)

The defendant also requests the clerk ensure the address has been changed on case no. 22-MJ-01089 & 23MJ00180. Also, requests a copy of the Stricken records. Thank you,

Since part of the case is regarding an alleged "delusional" patent on The Warp Speed Formula, the notice has been attached as evidence of it's truth and actuality, which is still pending & may be part of further action civilly regarding said patent in case any more harassment is made towards the inventor in furtherance of the claim, as what started this whole case and controversy to begin with in 2019. Respectfully Submitted in good faith.  
Seasons blessings.
